DRIVER

- Relevant experience of driving a truck.
- Loading and unloading of materials, machinery, tools, etc.
- Support to construction teams.
- Driving license required (C + E).
- Minimum of 2 years experience.

PROJECT PARTNER

CONVENIENCES PROVIDED BY VERNE TO OUR PROJECT PARTNERS

- Possibility of financial support: upfront of 2.500€ per worker incorporated into our projects to cover the expenses of the incorporation. Its amortization will be made through compensation with the invoicing of the first 4 months.
- Possibility of a hire-purchase plan for machinery: we have in stock everything necessary to carry out the required activity, so that the company would not need to move its machinery.
- Relocation support: we take care of both the search for a property and the management of the rental with the tenant.
- Legal support for establishment in the country: mediation with a local consultant, who will take care of all the necessary procedures for your establishment in the country, if necessary.

Terms of payment: possibility of two payments per month during the first four months of collaboration.

Collaborate with a company with solvent clients in long-term projects: the commitment of operators to deploy their own fibre optic networks guarantees workloads for several years.
