

## IOR PRESENTS *INFORMATION PORTAL* PROVIDING ADVICE TO COMPANIES AND POSTED WORKERS

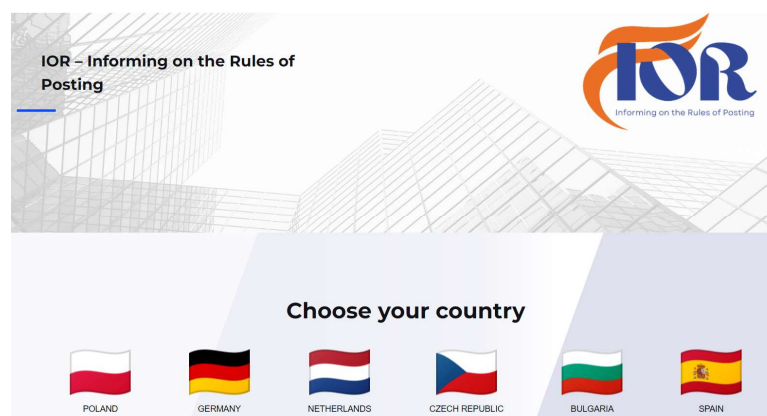

The European Union funded project *Informing on the Rules of Posting, IOR*, focuses its activities on providing **quality information** to both posted workers and the employers who post them, with a triple objective:

- to improve the implementation and correct application of the European rules on the posting of workers;
- to increase the accessibility, transparency and quality of information on terms and conditions of employment, in particular in the agricultural, care and construction sectors; and
- to facilitate the transnational exchange of information and good practice during its implementation, extending its impact to non-EU countries, in particular candidate countries.

To fulfil these objectives, an **Information Portal** has been developed to provide information and advice that can be requested by workers and employers from partner countries or any other Member State or candidate country of the European Union.

Access to the **Information Portal** is available at the following link, where you can click on the flag of the corresponding country and access to the information in the national language:

<http://fabinternationalprojects.eu/ior-informing-on-the-rules-of-posting-select-language>

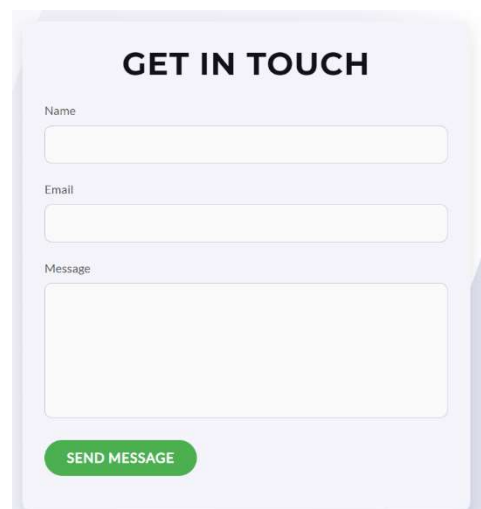

**Information:** The **Information Portal** is intended to become as a reference framework of the European regulations and those of the partner countries in the IOR Project. For this purpose, it includes a catalogue of questions and answers on basic information on the EU regulations on the posting of workers; and another catalogue of questions and answers on specific information referring to each partner country of the project and its target professional sectors. The answers given to the questions posed in these catalogues have **links to more specific information** on the official national website and other websites of interest that may exist: Social Security; payment of taxes; medical assistance, etc.

**Advice:** The functioning of the **Information Portal** as an advising instrument, through the international network of advisors created within the project, is provided through different options: through platforms (ZOOM or Skype), by telephone, in person, upon appointment or through the **Information Portal**, in the section called 'Advice', where the following 'dialogue box' will appear to communicate with the advisor of the **Information Portal**:
